

THE COSTUME CULTURE ASSOCIATION
Regulation for Reference List Preparation
The Research Journal of the Costume Culture

Enacted in April 20, 1993
Most recently revised in August 11, 2021

<Basic Principles>

1. References should be written in English.
2. All the references cited in text (including figures and tables) should be listed in the references list. All the references presented in the reference list should be cited in text.
3. Footnotes and endnotes are not used to cite references.
4. The reference list should be indented by 3 spaces (in Hwp) from the left hand margin at the second and subsequent lines.
5. References should be listed in alphabetical order of author's last name. Multiple documents of the same author are listed from the oldest to the newest.
6. In the case of citing references in the text, write as 'author name(year)'. In the case of indicating citation at the end of the sentence, write as (author name, year). For manuscript written in Korean, no space is needed before the parenthesis whereas a space is needed before the parenthesis for manuscript written in English.
7. Unless otherwise specified in this regulation, authors need to comply to the Publication Manual of the American Psychological Association (APA).

<Citing References in the Text>

1. When citing author names in the text

- 1) Cite all names of authors when there are two authors
[Ex.] Lee and Kim (2011) found ...
Characteristics of subcultures are ... (Lee & Kim, 2011).
- 2) When there are three, four, or five authors, cite all names of authors in the first time of citation.
[Ex.] Hong, Johns, Smith, and Branden (2008) found...
In subsequent citations, include only the name of the first author which is followed by et al.
[Ex.] Characteristics of subcultures are... (Hong et al., 2008).
- 3) When there are six or more authors, cite only the name of the first author which is followed by et al.
[Ex.] Hong et al.(2008) found...
Characteristics of subcultures are... (Hong et al., 2008).
- 4) Different authors with the same last name: When citing different authors with the same last name, include initials of their first and middle name, so that readers can differentiate them. If the initials are also the same, include their full first names to differentiate them.
[Ex.] According to H. Kim (2018)..., and Y. Kim (2018) asserted...
(H. Kim, 2018; Y. Kim, 2018)
- 5) Two or more documents by the same author in the same year: Use lower-case letters (a, b) with the year to order the entries in the reference list. Use lower-case letters with the year in the in-text citation.
[Ex.] Kim (2017a), Kim (2017b)
(Kim, 2018a, 2018b)

- 6) Two or more documents by the same first author but different the second author: If two or more references with more than three last names with the same year shorten to the same form, cite the last name of the first authors and those of as many of the subsequent authors as necessary to distinguish the references, followed by 'et al.'

[Ex.] Lee, K. H., Kim, H., Park, G. H., and Lee, S. S. (2018) ...

→Lee, Kim, Park et al. (2018)

Lee, K. H., Kim, D. H., Shin, H., and Lee, H. S. (2018) ...

→Lee, Kim, Shin et al. (2018)

2. When citing two or more documents within the same parentheses

Write author names in alphabetical order as presented in the reference list, using semicolon(;) between author names of each document.

[Ex.] Prior studies (Albert & Kolins, 2006; Edwin, 1998; Pepperberg et al., 1990) reported...

3. Organizations as authors

The name of organizations that serve as authors (e.g., corporation, association) is spelled out in alphabetical order. The name of some group authors is spelled out in the first citation and abbreviated thereafter.

[Ex.] First citation: ... are reported (National Institute of Retailing [NIS], 1999).

[Ex.] Second citation: ... are found (NIS, 1999).

4. Translate works

List names of the original authors, and list both publication years of original work and translated work.

[Ex.] ...is mentioned (Frings, 2003/2011).

5. Newspaper/magazine articles without authors

Write the title of the article in stead of an author. When the title is too long, cite the first 2-3 words of the title. Use double quotation marks on the title.

[Ex.] ... are in fashion ("New style comes", 2004).

6. Books without authors (reports, catalogs, etc.)
